

Dear Winter

*Dear Winter
So long! Goodbye!
Your times up now!
Come along and take your bow!*

*I am the Joker that will puzzle your weather,
I will charm flowers, especially heather.
I call back migrating birds,
Did you know' birds fly in great big herds?*

*I am the yellow prince of sunshine,
Unlike you who shivers spines.
I am Queen bee of animal kind,
If you don't fly I'll kick your behind.*

*I am the enchantress of golden days,
I bring chicks in yellow hay.
I bring lambs that frolic about,
Just you scam or I will shout!*

*I am the humming bird in the tree,
I give stripes to the bees.
I bring flowers and animal birth,
I bring brighter lights to the earth.*

*I am Spring, the number one season,
Do you need another reason?
Now's your time to run away,
For Spring is the season of this day!*

*Farvel, Tchau and hasta la vista,
Au Revoir, Vi ses and arrivederci.
Aut wiedersen, Hat de bra and Za Jain,
Goodbye, so long and...*

SEE YA BABY!!!!!!
